

WOMAN IN BAD CONDITION

Restored To Health by Lydia E. Pinkham's Vegetable Compound.

Montpelier, Vt. — "We have great faith in your remedies. I was very irregular and was tired and sleepy all the time, would have cold chills, and my hands and feet would blot. My stomach bothered me. I had pain in my side and a bad headache most of the time. Lydia E. Pinkham's Vegetable Compound has done me lots of good and I now feel fine. I am regular, my stomach is better and my pains have all left me. You can use my name if you like. I am proud of what your remedies have done for me." — Mrs. MARY GAUTHIER, 21 Ridge St., Montpelier, Vt.

An Honest Dependable Medicine
It must be admitted by every fair-minded, intelligent person, that a medicine could not live and grow in popularity for nearly forty years, and to-day hold a record for thousands upon thousands of actual cures, as has Lydia E. Pinkham's Vegetable Compound, without possessing great virtue and actual worth. Such medicines must be looked upon and termed both standard and dependable by every thinking person.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

Cause for Thankfulness.
In a Sunday school in a northern town there was one little negro girl in the class.

The teacher asked each little girl to think of something that she should be thankful for.

Each girl told of some special blessing that was hers. When she came to the little negro she said: "Now, Sadie, what is your special blessing?"

"That my face is black and I don't have to wash it but once a week," was the reply.

TENDER SENSITIVE SKINS

Quickly Soothed by Cuticura. Nothing Better. Trial Free.

Especially when preceded by a hot bath with Cuticura Soap. Many comforting things these fragrant super-creamy emollients may do for the skin, scalp, hair and hands and do it quickly, effectively and economically. Also for the toilet, bath and nursery. Sample each free by mail with Book. Address postcard, Cuticura, Dept. XY, Boston. Sold everywhere.—Adv.

Must Be.

"You say that she is sending your letters back unopened. Then you may be sure that she has given you up."

"Why?"

"Well, it shows that her contempt is greater than her curiosity."

A hen sits still and earns her corn, but it's power, few men who can do it.—Macon News.

A blanket mortgage will keep the mortgagor hopping if not warm.—Deseret News.

A Stitch in Time

Chills, fevers and germ diseases are easily cured by the use of Doan's Kidney Pills. At any time when suppuration is caused by a lame, aching back, rheumatic pains, headaches, dizziness or disordered urination, the use of Doan's Kidney Pills is a stitch in time that may avoid serious kidney disease.

No other medicine is so widely used, so freely recommended or so generally successful.

A Missouri Case

"Many Times," J. McCracken, Mo., says: "My kidneys acted too freely and I had sharp, cutting pains in my back and sides. I could not work, but all night long I would lie down. After doctoring failed, I used Doan's Kidney Pills and I am cured and I haven't suffered since."

Get Doan's at Any Store, 50c a Box. **DOAN'S KIDNEY PILLS**. FOSTER-MILBURN CO., BUFFALO, N. Y.

Make the Liver Do its Duty

Nine times in ten when the liver is right the stomach and bowels are right. **CARTER'S LITTLE LIVER PILLS** gently but firmly compel a lazy liver to do its duty.

Cures Constipation, Indigestion, Sick Headache, and Distress After Eating. **SMALL PILL, SMALL DOSE, SMALL PRICE.** Genuine must bear Signature *Wm. Wood*

OLD SORES

Since 1892 **ALLAN'S ULCERINE SALVE** has healed more old sores than all other salves combined. It is the most powerful salve known and is the best for all sores, whether on the face, neck, arms, legs, or feet. It is sold by all druggists. **ALLAN'S ULCERINE SALVE**, 25c a Jar. **ALLAN'S ULCERINE SALVE**, 25c a Jar.

PARKER'S HAIR BALM. A hair preparation of merit. It is sold by all druggists. **PARKER'S HAIR BALM**, 25c a Jar.

HORSES, PIGS and CATTLE

STARTING A FLOCK OF SHEEP

Ram is Main Thing and Conformation Should Be Preferred to Size—Keep Best Ewe Lambs.

(By SMALL ILLINGTON.)
The ram is the main thing. Unless the head of the flock is everything he should be, it will be impossible to breed up to the highest standard.

In selecting the ram, look for conformation, rather than size. Some big rams are poor breeders. The ram should be close to the ground, square as a block, and strong in bone. He should have a well-shaped head and a clean cut all-around makeup.

If you are near a good, big market for lambs, Southdowns are about the most profitable sheep to raise. The man who goes into sheep-raising for market, ought to buy a few of the best pure-bred ewes he can afford. Get the best, even if you must make up.

The man who goes into sheep-raising for market, ought to buy a few of the best pure-bred ewes he can afford. Get the best, even if you must make up.

POULTRY

SPROUT OATS FOR CHICKENS

Homemade Arrangement Will Prove Satisfactory—Feed in Small Squares, Preferably at Noon.

You can buy ready-made oat sprouts from several makers, but a home-made affair will serve the same purpose. For a moderate-sized flock have made a stand for three trays. Have four uprights, corners, of 1x2-inch stuff 52 inches high. Board up back, sides and top. Have well-fitting door for front. On inside of corner posts nail 1x2-inch pieces from front to back, for trays to rest on. Put low 22 to 24 inches from bottom, the second ten inches above, the third eight inches above, and allow six inches for top tray. Make trays of three-fourths to one-inch boards, with sides three inches high, or perforated, galvanized iron for the bottoms. Use a low, broad-bowled meal oil lamp on floor to heat. Temperature should be 65 to 80 degrees. Fill trays with oats that have been well soaked in warm water 24 hours, up to level of sides. Keep well moistened with warm water. They should sprout in 24 hours. By filling trays three days apart at first, this will allow for transferring from top to bottom as sprouts grow. The sprouts should be four to six inches high to get best results. Cut out oats and sprouts in blocks of two to three inches square and feed preferably at the noon feed.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.—Adv.

VINDICATED BUT NOT POSTED

Old Calhoun Clay Thought Beaten For Was Being Treated With Undue Leniency.

Gen. Carroll Devoe, at a dinner in Washington, was drawn into a war argument by a young lady.

The young lady, having conquered the general, as she thought, raised and smiled triumphantly; but he, with a smile of a different kind, said:

"My young friend, it is hard to argue with you because your ignorance of war is very complete. It is plain from your remarks that you don't know the difference between a hoaxer and a mortar, and I believe you think that shrapnel, grape and caustic could all be shot indiscriminately out of a shotgun."

"In fact you remind me of old Calhoun Clay."

"Cal," said the old man's master one day, "I see by the papers, Cal, that the enemy has been driven back."

"Driven back?" old Cal grunted. "Driven back? Driven? Huh, I'd make 'em walk."

Reducing Illiteracy.

Only fifteen out of every one thousand children from ten to fourteen years of age in the United States are unable to read and write.

These figures just announced by the federal bureau of education show a striking decrease in child illiteracy during the last fourteen years. In 1900 the number of illiterate children between the ages of ten and fourteen was forty-two in every thousand. In 1910 this number was reduced to twenty-two. Four years have further lowered it more than 33-1-3 per cent.

Assuming only the latter rate of decrease, twenty years more may see youthful illiteracy in this country almost cease to exist save among newly arrived immigrant families. Nor can the present rate of improvement fail to produce in the same period a marked change in the percentage of illiteracy in the entire population of ten years and over—which in 1910 was 7.7, or seventy-five illiterates for every thousand.

VENTILATING THE HEN ROOST

Fresh Air May Be Supplied by Using Six-Inch Board, With Strips on Side, Placed Inside.

Take a six-inch board, nail a three-inch strip on either side and box up one end. Make a four-inch hole in side, near the roof, place boxed end of trough over hole on the inside of building with vent end down, and fasten by

Details of Ventilator.

ventilating or with cleats. This is for incoming fresh air. Take a piece of galvanized iron six inches in diameter and screw on the outside of henhouse over one edge of hole. Use the ventilator regulator according to outside temperature and direction of wind. To provide for the release of impure air use the same device, but reverse the

application, making holes in bottom of siding with boxed end of trough down and vent end up. This will ventilate without draft.

VALUABLE POULTRY FEED

Some Fowls Become Fat on Almost Any Kind of Food, While Others Will Not Fatten on Corn.

Corn is a valuable poultry food, and it is in its abuse and not its use that it is to be condemned. Some fowls become fat on almost any kind of food, while others will not fatten even on corn. There seems to be a good bit of humbleness in the nature of the make-up of the hen. If hens are made to exercise for their grain, and are in a good laying condition, there is not much danger of their becoming overfat. In fact, it is rather a difficult matter to overfatten laying hens. It is when they are slack in laying and become lazy that the fat seems to start to grow. When hens become too fat they should be placed in a separate yard where there is no male bird, as the attention of a male to an overfat hen is apt to hasten death. If such hens are given only an evening feed of wheat and nothing during the day except green food and water they will soon lose considerable of their surplus fat.

Composition of Poultry Manure.

According to the central experiment station, Ottawa, Canada, the composition of the average poultry manure is as follows: Water, 66 per cent; nitrogen, two to eight per cent; phosphoric acid, two to five per cent; potash, eight to nine per cent. This analysis would place the value per ton at \$5 to \$8.50.

A Better Idea.

"Why are you late for school, Harold?"

"We had the most delicious pancakes for breakfast, and it takes a long time to make them. Mother sent you a note."

"Hum!" sniffed the teacher. "Why didn't she send me a few of the pancakes?"

Beyond Reach.

"Cheer up; there's a silver lining to every cloud, you know."

"Yes; but I'm no aviator."

A GLASS OF SALTS WILL END KIDNEY-BACKACHE

Says Drugs Excite Kidneys and Recommend Only Salts, Particularly If Bladder Bothers You.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.—Adv.

TALK ON WESTERN CANADA

Facts Don't Lie—Western Canada is Full of Facts—Here Are Three of Them.

1. C. T. Moore, Underhill, Man. Came from Bruce County, Ontario, 1882, with a capital of \$2.00. Homesteaded quarter section. Now owns 2,800 acres for which he paid average of \$20.00—worth today \$40.00 per acre.

2. James Steel, Battleford, Saskatchewan. Came from Perthshire, Scotland, 1904. His farm advanced to bring himself and family to Canada. Took up homestead, which he sold later \$25.00 per acre, buying 1,000 acres at \$15.00 per acre. Has been very successful in mixed farming. Values land now at \$40.00 per acre, and is worth \$20.00. "If I had remained in the Old Country my gray hairs would have been a passport to the poor house," he says.

3. H. J. Smith, Clover Bar, Alberta. Came from North Michigan, 1893, without capital. Now farming 800 acres, valued at \$200 per acre. Purchased originally at \$15.00 per acre. Engaged in mixed farming. Cows average him \$150.00 a year.

All this talk about the exploitation of labor by capital, class distinction, living wage, high cost of living, and so forth, doesn't hold the slightest interest for the Canadian farmer. Why? Because he has proved that you can't begin too poor to become rich in Canada; that free homesteads preclude the possibility of being robbed of freedom and independence; that the high cost of living can't hurt the man who grows most of his own necessities; that his labor brings reward in exact and just proportion to time and intelligence invested.

If those who whine at urban conditions would give a little time to investigating those suburban, they would likely spy a clear way out of their difficulties. For the first step, drop a card to any Canadian Government Agent.—Advertisement.

A Woman's Logic.

The following fable, which is probably of Turkish origin, is not without a touch of truth. As a woman was walking, a man looked at and followed her.

"What?" said she, "do you follow me?"

"Because," he said, "I have fallen in love with you."

"Why so? My sister, who is coming after me, is much handsomer than I am. Go and make love to her."

The man turned back and saw a woman with an ugly face, and being greatly displeased, returned and said: "Why should you tell me a falsehood?"

"The woman answered: 'Neither did you tell me the truth for, if you were in love with me, why did you look back for another woman?'"

The Paradox.

GRANDMA USED SAGE TEA TO DARKEN HER GRAY HAIR

She Made Up a Mixture of Sage Tea and Sulphur to Bring Back Color, Gloss, Thickness.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of the famous old recipe for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does so naturally and evenly. You disengage a sponge or soft brush with it and draw this through your hair, taking one small strand at a time, by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy.—Adv.

Vocally Overwhelmed.

"You say that man has no conscience?"

"Well," replied Farmer Cornsmeal, "maybe I oughtn't to say that. But if he has one, it can't be much use to him. They say conscience is a still small voice, and the way he talks would keep it drowned out all the time."

More Effective.

First Father—Do you turn out the lights when your daughter's beau stays too late?

Second Father—No—I turn out the young man!

The trouble with the fellow who thinks he knows it all is that he has so much to unlearn.

Force of Habit.

"Ever since you've been in town," said the city relation, "you've been going to a soda fountain two or three times a day and ordering lemonade."

"Yep," replied Farmer Cornsmeal. "A habit's a habit."

"But you don't drink the lemonade."

"No, I don't want it. I'm willing to pay the nickel so as to get a straw to chew."—Washington Star.

Pitiless.

"Did Miss Howler sing with any feeling?"

"Not of pity for her audience."—Boston Transcript.

Death Lurks In A Weak Heart

If You're fluttering or weak, use **RENOVINE**. Made by Van Vleet-Mansfield Drug Co., Memphis, Tenn. Price 50c.
